2024

A GUIDE TO MY 2024  
BRANDING SERVICES.  
THE HOW, THE WHAT,  
& BEYOND.

*Come on in.*

I DESIGN BRANDS FOR  
THOSE WITH VISION  
AND A SENSE OF SOUL.

You have a vision, you have a story.

You have a business full of soul, and it deserves  
the brand capturing visuals to match.

I work with small business owners inspired by  
slow living, myth and mystic to create compelling,  
illustrative branding that captures their business  
ethos and story with intention and authenticity.

*You cannot manufacture  
soulfulness in a brand;  
you feel it.*

## *My ethos.*

My style of working, my inspirations, and the people I work with are all moved by a desire to contribute towards a more balanced, connected and sustainable future for ourselves and the earth.

When a brand embodies its soul, it captivates its community and builds with clarity of intention and identity; never losing sight of its values and essence. Capturing and understanding your brand's unique perspective and style is essential to brand sustainability and growth, and provides the foundation to success.

*The Why & The How*

THE FURTHER DETAILS.  
& FAQs

# FAQS?

## WHY DOES DESIGN COST WHAT IT DOES?

Design if done right, and with a professional, will often be a significant investment for any business. I'd love to share with you how I come up with my pricing, and what to consider when looking at quotes.

**HOURS INVESTED** - Behind every concept deliverable and presentation there is a lot of work unseen. The experimenting, the comparing, the aligning with brief. Each choice is considered and exercised, and is something I must make sure is reflected when I come up with pricing.

**NICHE & EXPERIENCE** - I have been a self employed designer for 8 years now, and have a good understanding of where I sit in terms of skill and experience, as well as having developed a well honed and streamlined process. My point of difference is also a design style that is fairly identifiable and features heavy illustrative skill, which is something I make sure is reflected in my pricing, whilst making sure my rate is honest and appropriate.

**BUSINESS VALUE** - Design has the ability to transform and grow your business in amazing ways, that will ultimately result in increased revenue. The return on invest with branding is often very quick, and I reflect this value and potential in my pricing.

## WHEN CAN WE START?

I usually book out 4/6 weeks in advance, so please bear that in mind when reaching out. However, sometimes projects can come together quicker than anticipated and space opens up! My Flourish In A Fortnite slots are set, so reach out to find out when these are.

## HOW DOES PAYMENT WORK?

With all my packages I require a 50% deposit up front. Flourish In A Fortnite's last 50% is billed on completion. Half way through work on The Brand Horizon I will bill 25% with the remainder on completion.

## DO YOU OFFER PAYMENT PLANS?

Yes! Investing in design can be significant for many businesses, so I can offer payment plans to help stagger the costs. This can be discussed in our discovery call.

## CAN I JUST HAVE A LOGO?

For me, a brand foundation and sense of positioning is integral to create branding that can serve with purpose. To create just a logo in isolation is unlikely to serve your brand as a whole.

## CAN I CUSTOMISE A BRANDING PACKAGE?

These are my 2 core offerings which are designed with intention to serve small businesses and founders, however I am flexible to moving elements around that will suit your individual business needs.

## CAN I GET MORE DESIGN WORK?

Most definitely. Once you have completed a branding process with me I am super happy to continue creating together. Refer to the add on services above to see what's possible!

## DO YOU OFFER WEBSITE DESIGN?

No. Sorry, I specialise in print and illustration driven design work, and prefer to give my full energy and passion to this. However I can point you in the direction of excellent web designers.

# Why me?

Investing in brand design is a significant step for any business. It's important you are making that step with the designer who is best for you. Every studio and creator works differently, and for different reasons. Here's a little insight into how I operate as a business, and the values that are woven through my process and projects. I'm very proud of what sets me apart as a designer, and if what I'm speaking about below resonates, I think we might be a great match.

## SLOW LIVING

Slow Living is the ethos of living with a spacious mind and lifestyle that allows for connection with the earth, our inner worlds, and wider communities. I truly believe that if we can integrate the practises of slow living (be that inner wellness and spiritual healing, or conscious business and consumption) and integrate more intention, presence and peace into our lives we can contribute towards a world that serves all with compassion and respect.

## ALIGNED CREATIVITY

Your project deserves someone who can understand and align with the soul of your business. As someone with a strong interest in alternative living, holistic wellness, outdoors lifestyle and quality product, in sharing your passion for your business, I can take the creative process to new depths and create truly aligned branding. To be aligned in perspectives and shared passion when collaborating, can not help but produce soulful and authentic results.

## TIMELESS DESIGN

In a digital era of many graphic trends, I call upon the stories and symbolism of our collective past and psyche to create enduring and timeless work. Weaving this respectfully into my work is a way of infusing the modern day with depth, meaning and mysticism that transcends the confines of 21st century living, and resonates eternally, speaking to us all on a subliminal level. In combination with the soul of a business, there is a sense of intention and timelessness that will sustain for years to come.

## CONSCIOUS BUSINESS

Beyond working with businesses moved by sustainability and the planet in mind, this value is about cultivating a conscious and transparent way of doing business that serves our outer and inner worlds. Here, an emphasis on sustainability (both ecological and personal) guides the type of businesses I work with as well as the project itself. I seek to work in a conscious and ethical way that serves both client and designer, and rejects the cult of productivity and busyness.

# How I work...

## *Inspiration & Brand Foundation*

The first step of the branding journey is distilling all of the ideas, inspirations and story that makes up your brand. It is about finding the most poignant and important elements to uplift. These need to feel the most unique when in combination and expressive of the core values, or soul, of your brand. In distilling these ideas we create clarity and direction. Everything you want to pour into your brand needs to feel tangible and refined, which is where the visual direction moodboard and positioning document work their magic.

## *Create & Refine*

Once we have refined and found that firm foundation to spring forward from, I can begin to imagine and create. Here is where the first brand concepts are delivered. They are the product of the work done in the first step; a visual solution to the intersection of themes and inspirations that your brand is infused with. Finding the right language to express these themes, and connect with your audience is where the creative process needs to be fluid and playful, so I can arrive at something original and compelling.

## *Deliver & Support*

When the visual language is feeling the most aligned and compelling possible, I will pull together all the deliverables and send over. The brand style guide will ensure you feel supported in how to apply your new branding, and start bringing your messaging and visuals to life with soul and style.

WHAT HAPPENS NEXT?

# *Reserving your slot.*

LET'S LOCK IT IN AND MAKE  
IT HAPPEN. BEAUTIFUL  
BRANDING AWAITS...

To keep things streamlined and moving well, for both myself and you, there are some timelines concerning your enquiry.

After a start date or slot has been decided, I will need written (email) confirmation within 7 days whether or not you will be proceeding with the project. Your proposed start date will be held for those 7 days. Without confirmation, or you decide not to proceed, the start date will become open for someone else in my calendar. Please note your quote is only valid for those 7 days also, and I have the right to re-issue quotes in line with my rate increases. (In extenuating circumstances I am super happy to keep communication flowing, and make exceptions in a way that is mutually supportive)

Please note that your project is not completely locked in to the calendar until a deposit invoice has been settled. Please ensure this is organised as soon as possible to ensure a smooth process.

As a small business owner, I am sure you understand the importance of a steady work flow, and boundaries surrounding timings and enquiries. I value my time and my clients, and encourage a transparent and mutually respectful process.

These make the best collaborations!

*“I can honestly say I have never worked with anyone as talented as Clara...”*

Clara is incredible.

In a varied career I have worked with a lot of creatives, from local graphic designers to global agencies such as Ogilvy on international brand campaigns. I can honestly say I have never worked with anyone as talented as Clara.

Her creative work is exceptional and 100% on brief (a rare combination!). She also follows an incredibly well structured and communicated process which makes the whole project a breeze. Working with Clara has been an absolute pleasure."
